

[www.NYCPlantSwap.org](http://www.NYCPlantSwap.org)

A site dedicated to helping NYC keep perfectly good plants out of our trash.

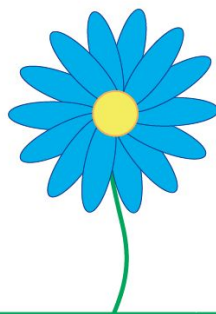

**Launched in Spring 2016!**

We have created a FREE online space where anyone who is moving, renovating, or just downsizing their collection in NYC can post a listing and pass a plant to other people instead of putting it on the curb or chucking it down the garbage chute.

**If we recycle everything else... Why not plants?**

*You can post anything you'd like to **donate** or **trade**, or make a **"wanted"** ad if you're looking for something specific in the area.*

Of course, we can't replace the fun and excitement of a live spring community plant swap... But we can offer a year-round place to go for local trades and donations.
